Anthony N. Hoang, M.D.

PUBLICATIONS

**Imaging Do Not Correlate With High Risk Prostate Cancer.** BJU Int. 2012 Dec;110(11 Pt B):E783-8.

**BOOK CHAPTERS**

PRESENTATIONS

**MRI Characterization of the Dynamic Effects of 5-Alpha Reductase Inhibitors on Prostate Zonal Volumes and the Clinical Utility of Prostate Segmentation in BPH**

Mid Atlantic – AUA – Podium Presentation October 2013

**Lack of impact of robotic-assisted radical prostatectomy on circulating tumor cell levels in patients with clinically localized prostate cancer**

American Urological Association – Poster Presentation May 2013

**Gleason Score Upgrading on MRI/Ultrasound Fusion Guided Prostate Biopsy versus Systematic 12-Core TRUS Biopsy**

American Urological Association – Poster Presentation May 2013

**Correlating Multiparametric Prostate MRI (MP-MRI) Suspicion for Prostate Cancer with MRI/Ultrasound (MR/US) Fusion Guided Biopsy Results and Gleason Grade**

American Urological Association – Poster Presentation May 2013

**Accuracy of Multiparametric Magnetic Resonance Prostate Imaging (MP-MRI) in Confirming Eligibility for Active Surveillance (AS) for Men with Prostate Cancer (PCa)**

American Urological Association – Poster Presentation May 2013

**Gleason Score Upgrading Seen In MRI/Ultrasound Fusion Guided Prostate Biopsy Versus Traditional 12-Core TRUS Biopsy**

Society of Urologic Oncology – Poster Presentation December 2012

**Verification Of Traditional Extended Systematic 12-Core Trus Prostate Biopsy Locations Using Electromagnetic Tracking.**

Society of Urologic Oncology – Poster Presentation December 2012
Selection Of Active Surveillance Candidates Among Men With Low-Risk Prostate Cancer: Value Of Multiparametric Prostate Magnetic Resonance Imaging.
Society of Urologic Oncology – Poster Presentation December 2012

Correlation Of Multiparametric Prostate MRI Suspicious Lesions with MRI/Ultrasound Fusion Guided Biopsy Findings
Society of Urologic Oncology – Poster Presentation December 2012

Multiparametric MRI and Fusion Biopsy Detect and Localize Recurrent Prostate Cancer
Mid-Atlantic AUA – Podium Presentation October 2012

Multiparametric MRI Guided Focal Laser Ablation of Prostate Cancer: A Phase I Clinical Trial.
Hoang A, Dmitry Volkin, Yerram NK, Rastinehad A, Sedlacko J, Linehan WM, Turkbey B, Choyke PL, Wood BJ, Pinto PA.
Focal Therapy Symposium - Video Abstract. June 2012

Magnetic Resonance Guided Intra-urethral High Intensity Focused Ultrasound Treatment of the Prostate.
Focal Therapy Symposium - Poster Presentation June 2012

Magnetic Resonance Imaging–guided Transperineal Prostate Biopsy in Patients without a Rectum
Focal Therapy Symposium - Poster Presentation June 2012

Multiparametric Magnetic Resonance Imaging Detects Prostate Cancer in Patients with Prior Negative TRUS Biopsies.
American Urological Association - First Prize in Best Poster May 2012

Low Suspicion Lesions on Multiparametric Magnetic Resonance Imaging Do Not Signify High Risk Prostate Cancer.
American Urological Association - Poster Presentation May 2012

Long Term Outcomes of Simultaneous Bilateral Partial Adrenalectomy for Pheochromocytomas.
Multiparametric MRI & Subsequent MR/Ultrasound Fusion Biopsy Improves Detection of Anterior Prostate Cancer Lesions.
Society of Urologic Oncology - Poster Presentation December 2011

Long Term Outcomes after Partial Adrenalectomy for Pheochromocytoma in Pediatric Patients with Von-Hippel-Lindau Syndrome.
Society of Urologic Oncology - Poster Presentation December 2011

Can Multi-parametric MRI Identify Prostate Cancer Patients who are Candidates for Active Surveillance?
Radiological Society of North America - Poster Presentation November 2011
